Empowering better healthcare
ABOUT THE CMPA

For 120 years, the Canadian Medical Protective Association (CMPA) has enabled members to deliver care, confident they will be assisted by the CMPA if they encounter medical-legal difficulties arising from the professional practice of medicine.

The CMPA is a not-for-profit, mutual defense organization in which the cost of medical liability protection is shared by our 100,000 physician members. Within this construct, assistance is provided to members who, in turn, are expected to practise in a manner consistent with the values of the medical profession and act in accordance with the obligations of the CMPA By-law. When it is proven a patient has been harmed as a result of negligent medical care (fault in Québec) provided by a CMPA member, the Association provides timely and appropriate compensation on the physician’s behalf.

BUILDING ON SUCCESS

The CMPA has been highly successful in fulfilling physicians’ medical liability protection needs by listening to our members and understanding their practices. We recognize that shifting economic, policy, social, and technological pressures necessitate the ongoing evolution of both our products and services and how they are delivered.

This Strategic Plan builds on our past success in meeting the requirements of a changing medical profession and Canadian healthcare system, and reflects a proactive and adaptive approach to meeting physicians’ future needs. Working collaboratively with stakeholders, the CMPA is enhancing our contribution to safe care by advancing evidence-based safe care strategies. As an essential element of the Canadian healthcare system, the CMPA will continue to exercise sound resource stewardship and advocate for system-level improvements to contain medical liability protection costs.

CONTINUITY AND CHANGE

The provision of effective and efficient medical liability protection requires a long-term perspective, one in which the ongoing confidence of physicians and their patients in the CMPA’s ability to deliver that protection is paramount. This Strategic Plan charts the Association’s way ahead through a changing environment and strengthens the essential role of the CMPA in Canadian healthcare. Reflecting on the CMPA’s long record of success and the dynamic nature of the environment in which our members now practise, this Plan achieves an appropriate balance between continuity and change.

2019–2022 STRATEGIC PLAN

Our strategy is guided by our vision and mission and seeks to achieve three long-term outcomes: Assist Physicians, Contribute to Safe Medical Care, and Support the Medical Liability System. The Plan reflects the Association’s unrelenting focus on member assistance, our emphasis on the importance of working with our stakeholders to effect positive improvements in the safety of care, and our commitment to effective and sustainable medical liability protection. Our core values define and guide all of the Association’s actions and decisions.

The medium-term objectives act together to direct the Association’s progress toward the long-term outcomes, while the strategic change initiatives form the foundation for annual operational and change management planning. The success indicators provide a basis for ongoing performance measurement, and the Association is committed to the transparent reporting of our progress in meeting our performance goals and executing our strategic change initiatives.

SAFE MEDICAL CARE
Within the context of a quality healthcare system and in collaboration with stakeholders, the CMPA is committed to enhancing the safety of medical care.

ETHICAL DEFENCE
The CMPA provides members with an appropriate and ethical defence and, in keeping with its philosophy of "defending the defensible" does not settle unsubstantiated claims for expediency or economic reasons. The CMPA seeks to do this in as timely a manner as is feasible.

RESPONSIBLE STEWARDSHIP
The CMPA operates in accordance with sound governance and management practices that support prudent administration of the resources entrusted to it.
HOW THE CMPA PROVIDES VALUE
